ANDREW BORGESON

(805) 798-5615 | ab@andrewborgeson.com | andrewborgeson.com

PROFESSIONAL SUMMARY

Data-driven Analytics professional with over 4 years of experience utilizing SQL, Python, and modern BI frameworks to accelerate revenue growth, optimize conversion funnels, and advise go-to-market strategies. Full-cycle analyst with a proven track record of architecting entire enterprise data infrastructure migrations, utilizing AI-assisted development tools (Claude Code) and Ruby to build and deploy production-level analytics.

TECHNICAL SKILLS

Languages & Databases: SQL (PostgreSQL, MySQL), Python (Pandas, Matplotlib, NumPy), Ruby

BI & Analytics Platforms: Metabase, Looker, Tableau, Mixpanel, Salesforce Reporting

Developer Tools & Workflows: Git, Claude Code, AI-Assisted Development, Workflow Automation

PROFESSIONAL EXPERIENCE

Avochato — *Remote* **Jan 2022 – Present**

Senior Customer Operations Specialist (Business Intelligence & Analytics)

- Single-handedly spearheaded and executed the organization-wide BI infrastructure migration from Looker to Metabase, architecting all underlying data models to centralize key performance metrics.
- Built and optimized complex SQL queries and cross-functional Metabase dashboards to anchor core Revenue, Product, and Customer Success performance tracking.
- Analyzed underlying ARR performance, CAC, unit economic payback periods, and historical cohort trends to directly guide annual corporate budgeting and strategic GTM positioning.
- Identified critical product drops and optimized activation sequences by owning the end-to-end user conversion funnel analysis, delivering actionable insights adopted by Product and Marketing teams.
- Designed, engineered, and deployed native, customer-facing reporting modules using Ruby and Claude Code to ship real-time usage analytics, messaging performance, and ROI tracking features directly into the core product.
- Synthesized complex analytical findings and built customized internal and customer-facing reporting frameworks for executive leadership, bridging technical data architecture with targeted business strategies.

Avochato — *Remote* **Mar 2021 – Dec 2021**

Customer Operations Specialist

- Extracted and transformed customer behavioral data using SQL and Looker to track core operational metrics.
- Constructed dynamic monitoring dashboards across Salesforce and Looker to trace CSAT trends and internal KPIs.
- Managed day-to-day corporate billing execution, usage invoicing, and systemic account adjustments.

Avochato — *Remote* **Jan 2019 – Feb 2021**

Customer Success Manager

- Managed a high-value account portfolio, leveraging product utilization metrics and usage patterns to mitigate contract risk, improve retention, and surface expansion pipelines.

EARLY CAREER HISTORY

Peek, ZOZI, Crushpath — *San Francisco, CA* **2015 – 2018**

Account Executive / Sales Development Representative

EDUCATION

Colorado College — *Colorado Springs, CO* **Graduated 2014**

Bachelor of Arts in Sociology | Focus: Quantitative Research Methods
